YEAR OF COMPLETION:

UBS Arena- October 2022

Retail Village- April 2023-Curent

Fiber Optic and CAT 6 Installation, Splicing, and Testing

DESCRIPTION

Haugland Energy Fiber has partnered with B&G Electric to complete the security/camera system throughout the parking area at the UBS arena. This involved the installation of thousands of feet of innerduct, various fiber optic cable sizes, coax cable, termination, splicing and testing.

HE is also currently working with B&G at the Belmont retail village to complete the installation of the fiber and coax network. Haugland Energy Fiber has completed the installation, splicing, terminations, and testing of 150,000 feet of fiber cable, 50,000ft of coax, 60,000ft of multicell max cell through the retail village.
