

Altice Remote Optical Line Terminal (ROLT) Fiber to the Home (FTTH)

Nassau and Suffolk County, Long Island

SECTOR: Telecom and Fiber

CLIENT: Altice ROLT

YEAR OF COMPLETION:
2018-Present

Single Mode and Multi-Mode
Fiber Optic

DESCRIPTION

Eastern Utilities was the exclusive contractor awarded the ROLT head-end location construction contract for Nassau and Suffolk counties, installing approximately 200 locations from 2018 to 2022. Their work included forming and pouring concrete cabinet bases, installing electrical systems from the base location to the PSEG connection point, installing fiber optic systems from the base location to the Altice connection point, setting the cabinets on the bases, and making all necessary connections.

Due to their success on Long Island, Eastern was asked to take over additional contracted areas, completing an additional 200 ROLT locations in Northern New Jersey, Yonkers, and the Hudson Valley from 2021 to 2023.
